

Meal Deals keep disappearing

If the meal deals keep disappearing when they have been added it can be a problem with the wcibuttnd.dan file.

When this happens when you go into the meal deal everything is blank, like below, rather than with a new deal it is usually filled in with the price being 0.

The screenshot shows a web interface for configuring a 'Mega Meal Deal'. The interface is divided into two main sections: 'Screen' and 'Details'. The 'Screen' section is mostly blank, with a 'Course 1' label at the bottom. The 'Details' section contains the following elements:

- Price Table:** A table with columns for 'Price', 'Price 2', 'Just Eat Delivery', and 'Just Eat Collect'. The 'Price' and 'Price 2' cells are empty.
- Dropdowns:** Two dropdown menus, one for 'Applies to' and another for 'Free Delivery'.
- Days:** A list of days with checkboxes: Monday, Tuesday, Wednesday, Thursday, Friday, Saturday, and Sunday.
- Price Range:** 'From:-' 0 and 'To:-' 0.
- Buttons:** 'Add New Course' (orange), 'Quantity:-' (input), 'Toppings:-' (input), 'Force Toppings' (checkbox), and 'Force Instructions' (checkbox).

At the bottom of the interface, there is a row of colored buttons labeled A through F: Pizza (red), Burgers, Veg, Chicken (green), Kebabs, Donner (blue), Side Orders (yellow), Starters (teal), and Deserts, Drinks (light green). A 'Finished' button (pink) is highlighted below these buttons.

To fix this delete the button that was setup, right click beneath the buttons in the grey space (Highlighted below) and re-enter the meal deal.
