

Only Takeaway showing on the main screen

This can be one of a couple of things.

Either the option in the security section of option is set to something other than "Delivery & Takeaway" or there is no customers file.

If you check the option in the security section of options in 2 at the bottom right you should see the following screen.

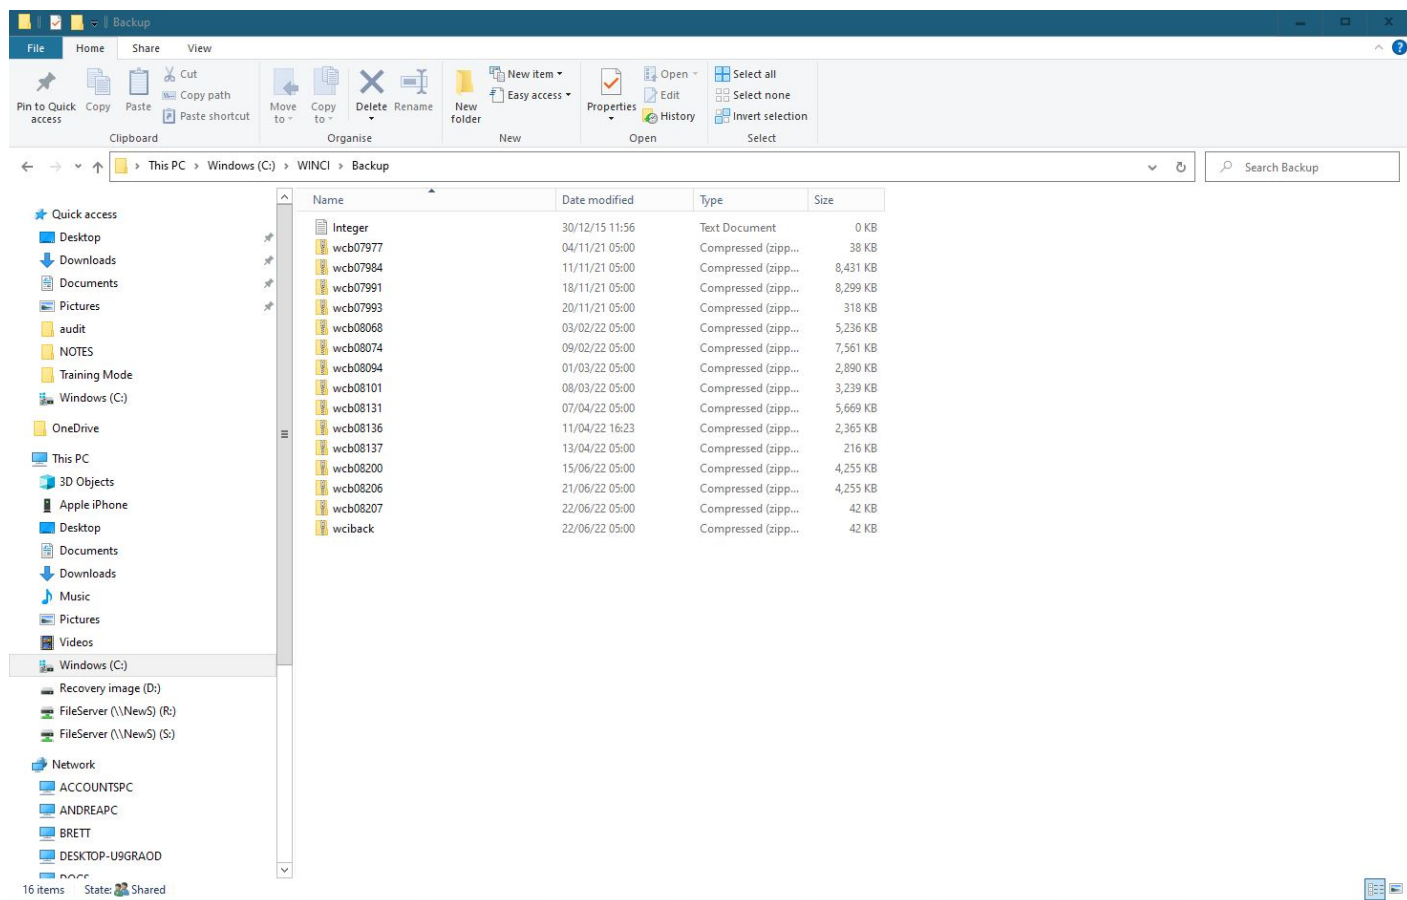

Receipt	Kitchen	Charges	Reports	Restaurant	Order Screen	Security	Set-Up
<div><div><div>Buttons</div><div>Order Types No Sale Log In Log Out Drivers Float Reprint Last Order Driver Log Assign Vehicles Assign to Kitchen (Deliveries) Shift Changes Call Log Colour <input type="checkbox"/> No Discount Button <input type="checkbox"/> Hides Print EOD Report Button <input type="checkbox"/> Allow Stock Control <input type="checkbox"/> Allow Wastage <input type="checkbox"/> Allow Raw Wastage <input checked="" type="checkbox"/> Driver Return <input type="checkbox"/> Hides No of Outstanding Orders <input type="checkbox"/> Purge Button on Main Menu <input type="checkbox"/> Stock/Waste on Main Menu <input type="checkbox"/> Expenses on Main Menu <input type="checkbox"/> Payment on Account <input type="checkbox"/> Drivers Log Includes Assistants for T/A <input type="checkbox"/> Logs Driver Out when Payment Made</div><div><div>Delivery & Take-Away</div><div>Delivery & Take-Away</div><div>No Delivery</div><div>Paid & Taken Only</div><div>P&T Eat In/Take Away</div><div>P&T Eat In/TA & Collect</div><div>Take Away & Pickup</div><div>On Main Menu</div><div>None</div><div>None</div><div>None</div><div>On Main Menu</div></div><div>Terminate Programs None Other Opt 1 Opt 2 Opt 3</div></div><div><div>Passwords if Discount More Than 0.00 % <input type="checkbox"/> Needed when Logging In/Out <input type="checkbox"/> Needed when Assigning to Driver</div><div>Loyalty Schemes Earn For Each £ 0 Receive - Points <input type="checkbox"/> 1 Point for Each Pizza Display <input type="checkbox"/> Display for Take Away Display on No If More Than 0 Pts Redeem Free Pizza for 0 Points After 0 Points 0 Discount <input type="checkbox"/> Can Edit Loyalty Points <input type="checkbox"/> Cash & C/C Only</div><div>Edit Orders <input checked="" type="checkbox"/> Allow Edit Orders After Completion <input type="checkbox"/> No Edit Allowed After Assigned To Driver <input type="checkbox"/> Doesn't Store Amended Order Details <input type="checkbox"/> Always Allows Reprint Order <input type="checkbox"/> Stores All Quantity Reduced Items View Orders Yes <input type="checkbox"/> Edit Customer Options <input type="checkbox"/> Can't Change Payment Method after Finalising HO. Number 0</div></div><div><div>Abort</div><div>Save & Exit</div><div>1</div><div>2</div></div></div>							

Anything other than the top choice (Delivery & Takeaway) will get rid of Delivery. Assign to Driver and Payment by Driver.

If this is OK the problem may be to do with the customer file. It can either be corrupt or has been

damaged and is empty.

Try replacing it from either last nights backup or one of the older ones if that has the same problem.
