

Only Takeaway showing on the main screen

This can be one of a couple of things.

Either the option in the security section of option is set to something other than "Delivery & Takeaway" or there is no customers file.

If you check the option in the security section of options in 2 at the bottom right you should see the following screen.

The screenshot shows a software interface with a top navigation bar containing: Receipt, Kitchen, Charges, Reports, Restaurant, Order Screen, Security, and Set-Up. The Security section is active, displaying several configuration panels:

- Buttons:** A dropdown menu is open, showing options: Delivery & Take-Away (selected), No Delivery, Paid & Taken Only, P&T Eat In/TA & Collect, Take Away & Pickup, and On Main Menu. Below the dropdown are checkboxes for various settings like "No Discount Button", "Hides Print EOD Report Button", "Allow Stock Control", "Allow Wastage", "Allow Raw Wastage", "Driver Return" (checked), "Hides No of Outstanding Orders", "Purge Button on Main Menu", "Stock/Waste on Main Menu", "Expenses on Main Menu", "Payment on Account", "Drivers Log Includes Assistants for T/A", and "Logs Driver Out when Payment Made".
- Terminate Programs:** A dropdown menu is set to "None", with "Other" and a text input field.
- Opt 1, Opt 2, Opt 3:** Three dropdown menus with values: Opt 1 (), Opt 2 (), Opt 3 (-).
- Passwords:** "if Discount More Than" is set to 0.00. A "Login/Logout" button is present. Checkboxes for "Needed when Logging In/Out" and "Needed when Assigning to Driver" are unchecked.
- Loyalty Schemes:**
 - Earn:** "For Each £" is 0, "Receive" is -, "Points" is a dropdown. "1 Point for Each Pizza" is unchecked.
 - Display:** "Display for Take Away" is unchecked. "Display on" is No. "If More Than" is 0 Pts.
 - Redeem:** "Free Pizza for" is 0 Points. "After" is 0 Points. "Discount" is 0. "Can Edit Loyalty Points" and "Cash & C/C Only" are unchecked.
- Edit Orders:** "Allow Edit Orders After Completion" is checked. "No Edit Allowed After Assigned To Driver", "Doesn't Store Amended Order Details", "Always Allows Reprint Order", and "Stores All Quantity Reduced Items" are unchecked. "View Orders" is Yes.
- Other:** "Edit Customer Options" and "Can't Change Payment Method after Finalising" are unchecked. "HO. Number" is 0.

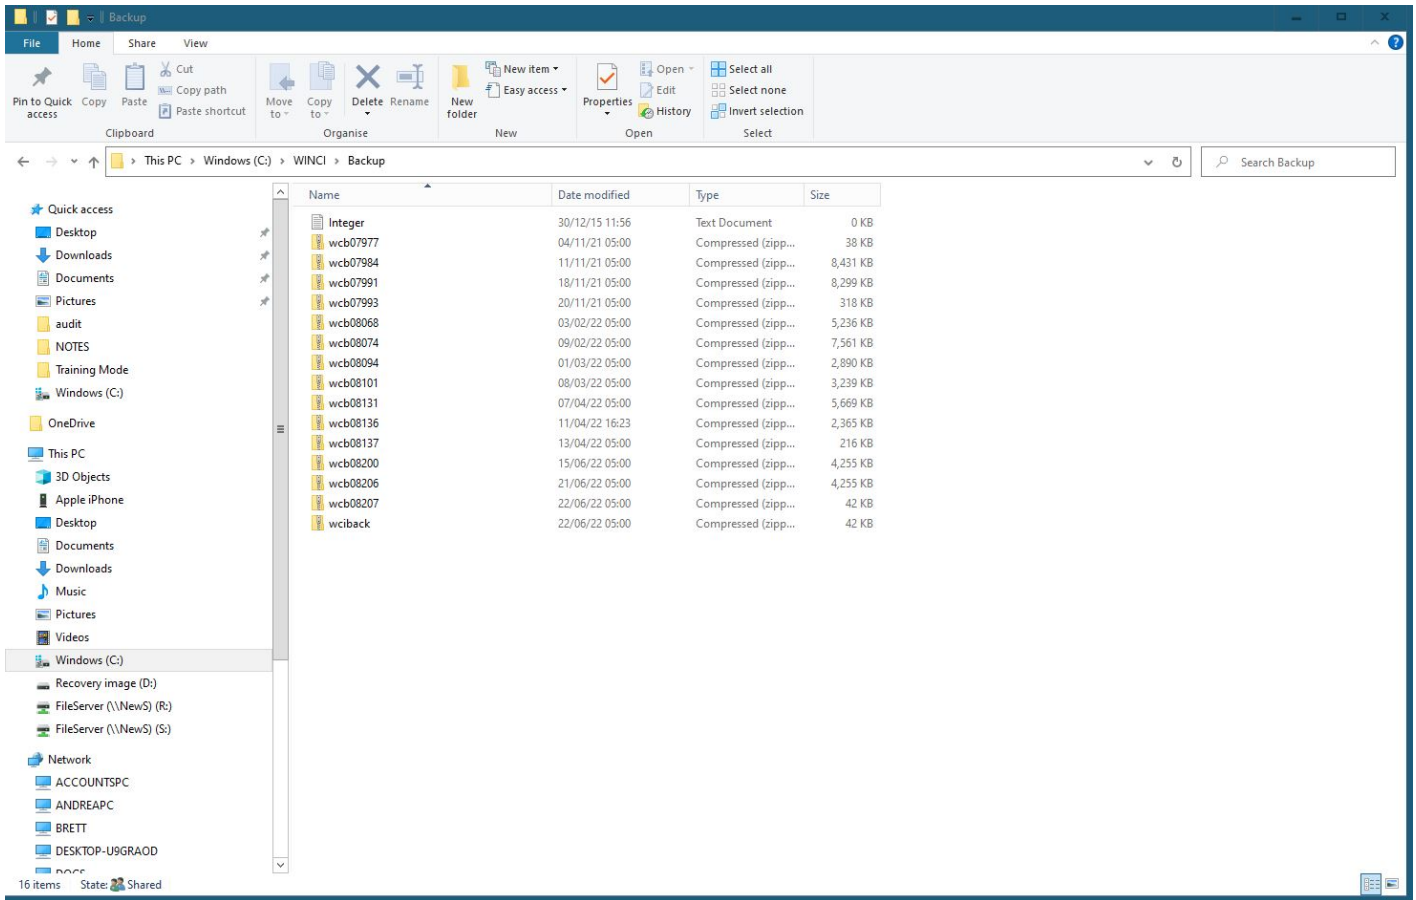

At the bottom of the screen, there are four buttons: "Abort" (red), "Save & Exit" (blue), "1" (orange), and "2" (green).

Anything other than the top choice (Delivery & Takeaway) will get rid of Delivery. Assign to Driver and Payment by Driver.

If this is OK the problem may be to do with the customer file. It can either be corrupt or has been

damaged and is empty.

Try replacing it from either last nights backup or one of the older ones if that has the same problem.

Revision #2
