

PayPal Merchant - How to acquire 'Client ID' and 'Secret'

This guide will provide instructions on **how to acquire your Client ID and Secret from PayPal**. Parts of some images below have been blurred out for security reasons.

Each image will enlarge in a new tab once clicked.

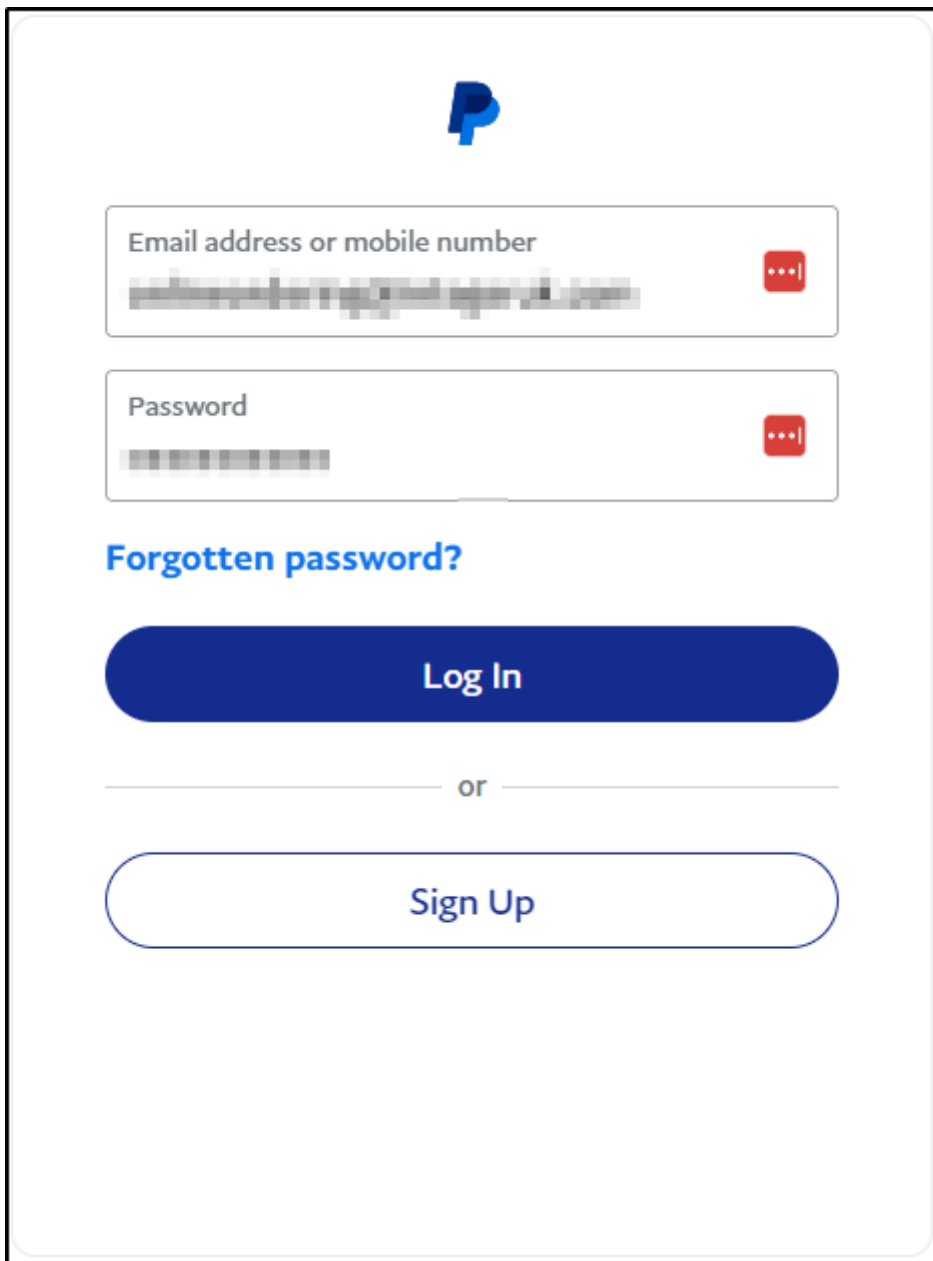

1. Go to **PayPal Developer** and click '**Log In to Dashboard**':

<https://developer.paypal.com/home>

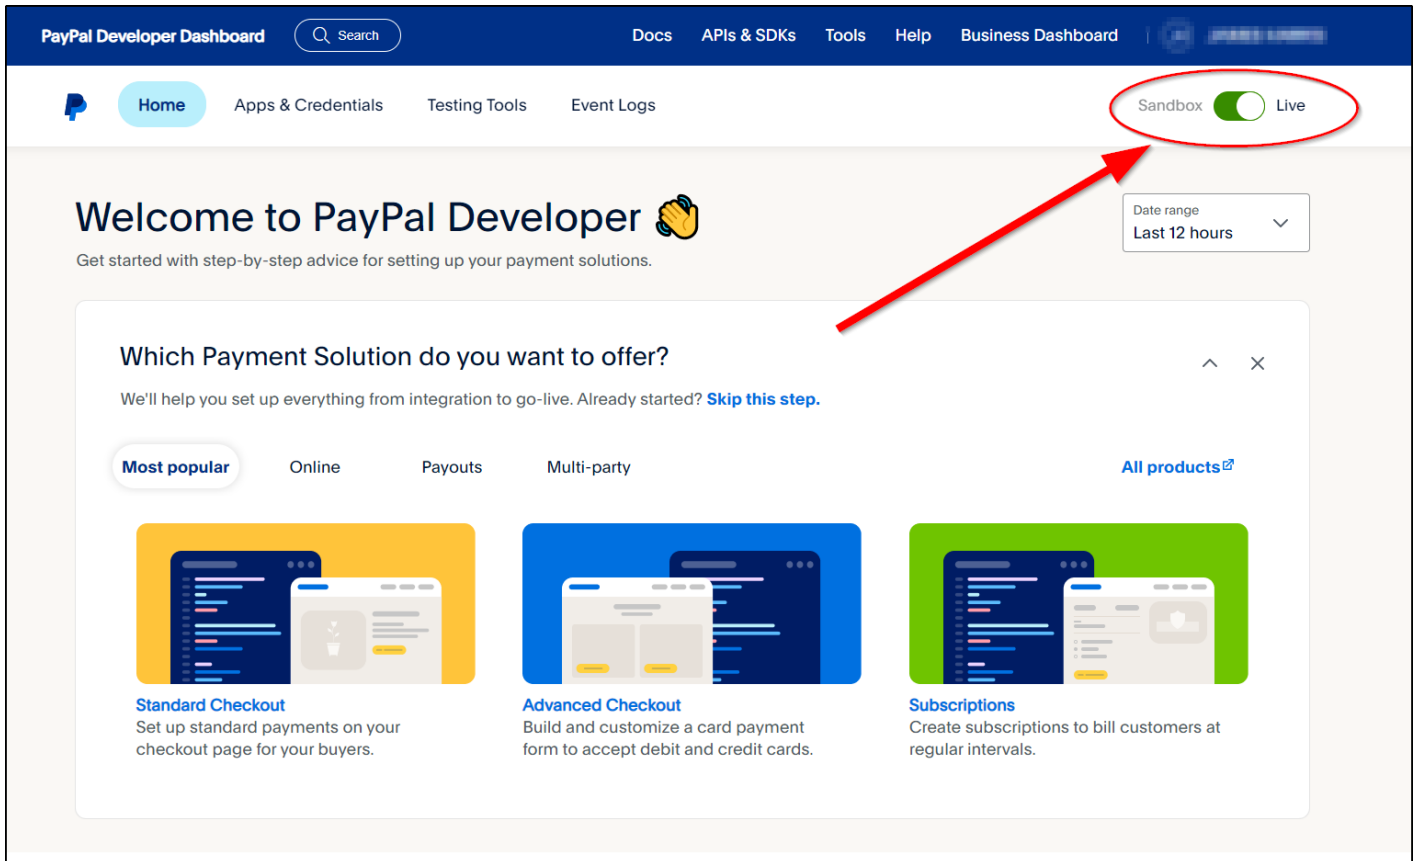

2. **Sign into your account.** This will require a One Time Pass

code (OTP), this can be texted to your mobile phone.

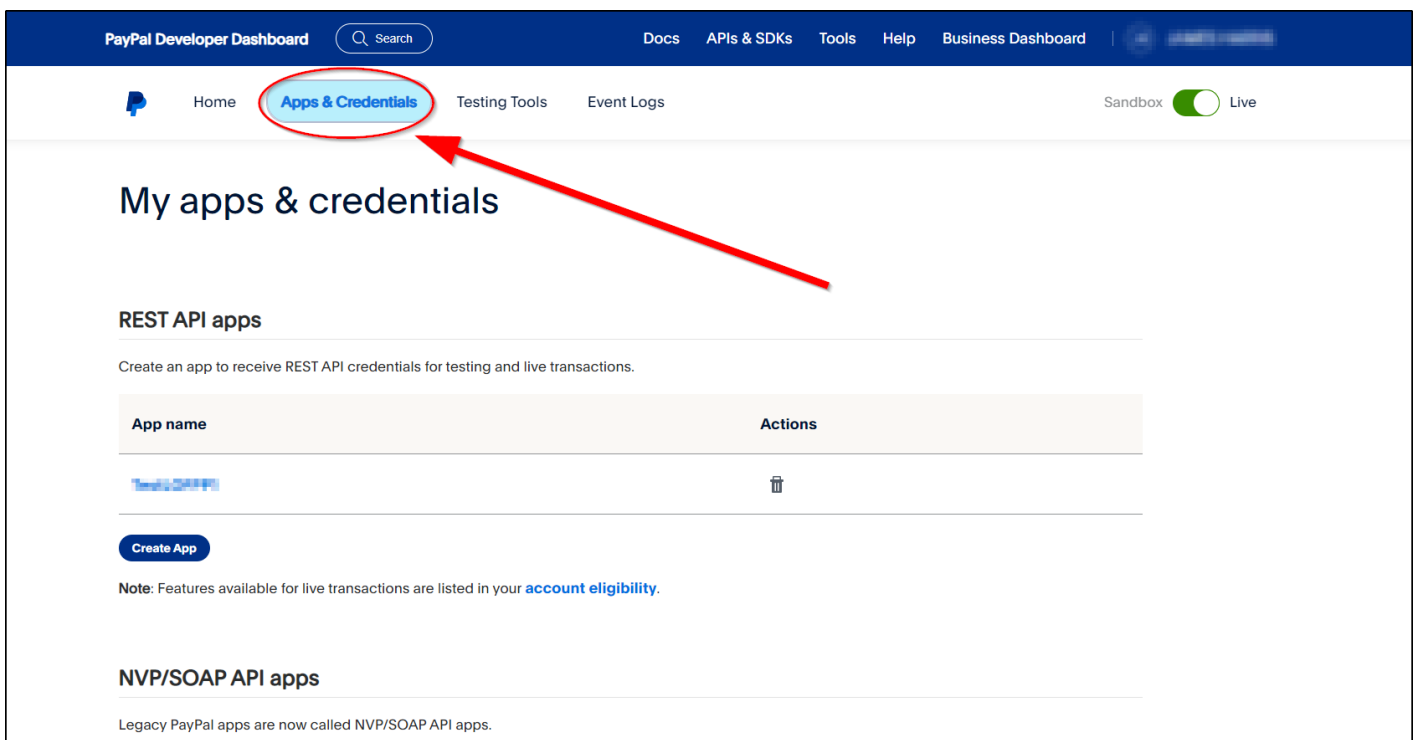

The image shows a mobile application interface for logging in or signing up. At the top is the Paycom logo, a blue stylized 'P'. Below it are two input fields. The first field is labeled 'Email address or mobile number' and contains a blurred text string. The second field is labeled 'Password' and contains a blurred text string. Both fields have a red eye icon on the right side. Below the password field is a blue link that says 'Forgotten password?'. Underneath the link is a solid blue button with the text 'Log In' in white. Below the button is a horizontal line with the word 'or' in the center. At the bottom is a white button with a blue border and the text 'Sign Up' in blue.

3. Once logged in, set the account to '**Live**'. (If the account is set to 'Sandbox', then it may require another login once it switches to live).

4. Click on 'App & Credentials'

5. Click on 'Create App'.

The screenshot shows the 'My apps & credentials' page in the PayPal Developer Dashboard. The page has a dark blue header with navigation links: 'PayPal Developer Dashboard', 'Search', 'Docs', 'APIs & SDKs', 'Tools', 'Help', and 'Business Dashboard'. Below the header, there's a sub-header with 'Home', 'Apps & Credentials' (selected), 'Testing Tools', and 'Event Logs'. On the right, there's a 'Sandbox' toggle switch set to 'Live'. The main content area is titled 'My apps & credentials' and contains two sections: 'REST API apps' and 'NVP/SOAP API apps'. The 'REST API apps' section has a table with columns 'App name' and 'Actions'. Below the table, there's a 'Create App' button circled in red, with a red arrow pointing to it from the text '5. Click on 'Create App'.'. A note below the button states: 'Note: Features available for live transactions are listed in your [account eligibility](#).'

6. Enter your Shop Name in the 'App Name' box and then click 'Create App'. In this example, I have called my shop 'Integer Pizza and Kebabs'.

The screenshot shows the 'Create New App' page in the PayPal Developer Dashboard. The page has the same header and sub-header as the previous screenshot. The main content area is titled 'Create New App' and contains a form for creating a new app. The form has a section titled 'Application Details' with a text input field for 'App Name' containing the text 'Integer Pizza and Kebabs'. Below the input field, there's a reminder: 'As a reminder, all apps created under your account should be related to your business and the type of business it conducts.' and a note: 'By clicking the button below, you agree to [PayPal Developer Agreement](#) (US accounts only).' At the bottom of the form, there's a 'Create App' button circled in red, with a red arrow pointing to it from the text '6. Enter your Shop Name in the 'App Name' box and then click 'Create App'.'. The footer of the page contains links: 'Reference', 'PayPal.com', 'Privacy', 'Support', 'Legal', and 'Contact'.

7. Under 'Secret', click **show**.

PayPal Developer Dashboard

Integer Pizza and Kebabs

App display name: Integer Pizza and Kebabs

LIVE API CREDENTIALS

Note that not all features are available for live transactions. Features available for live transactions are listed in your [account eligibility](#).

PayPal Account

Client ID

Secret

show

8. Both the Client ID and Secret will be visible to copy.

There is a little black icon at the end of Client ID and Secret. Clicking on that logo will automatically copy (). This can then be pasted directly into an email or document.

LIVE API CREDENTIALS

Note that not all features are available for live transactions. Features available for live transactions are listed in your [account eligibility](#).

PayPal Account

Client ID

Secret

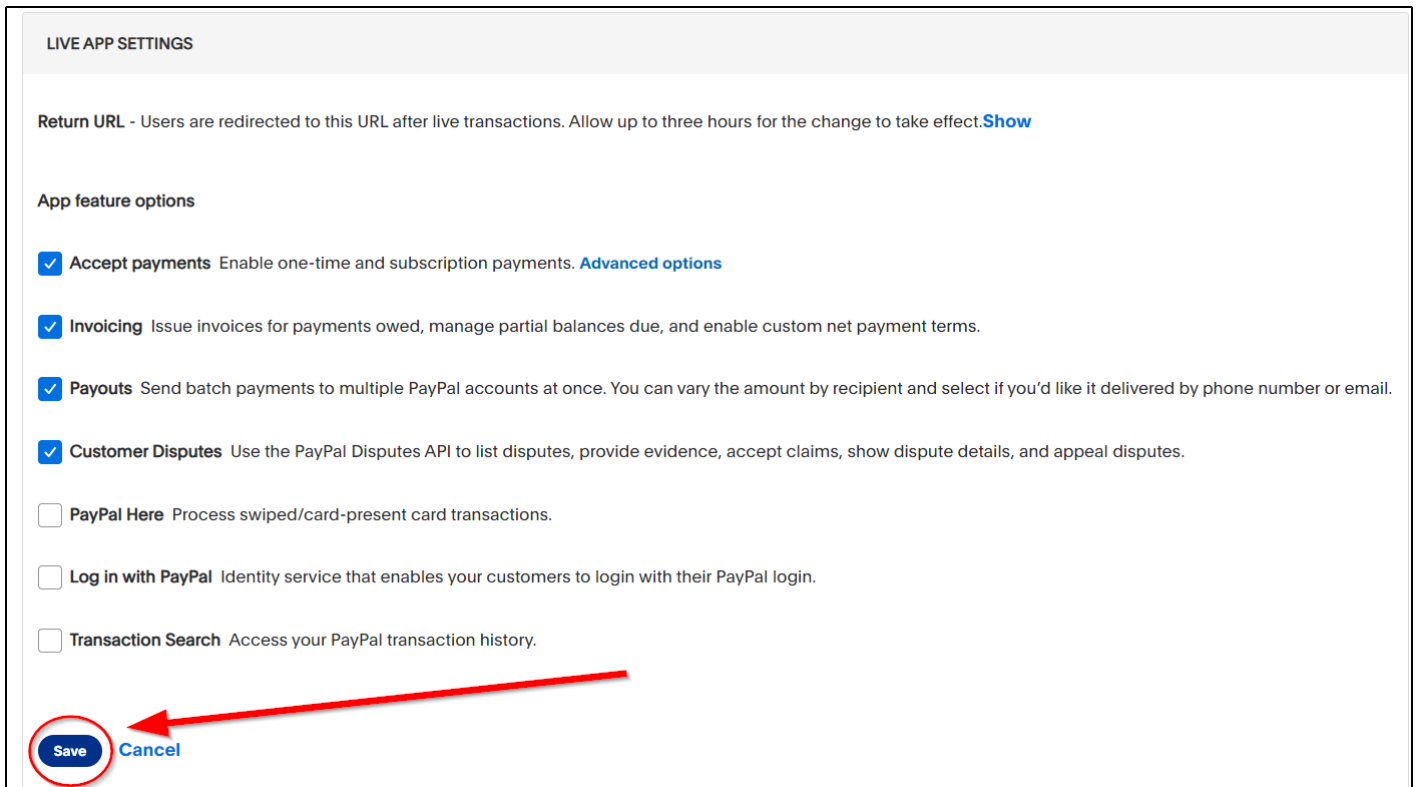

Hide

Note: When you generate a new secret, you still maintain the original secret. The maximum number of client secrets is two. A client secret is either in enabled or disabled state.

Created	Secret	Status	Action
Feb 8, 2023		Enabled	

Generate new secret

9. Scroll down and click '**Save**'.

LIVE APP SETTINGS

Return URL - Users are redirected to this URL after live transactions. Allow up to three hours for the change to take effect. [Show](#)

App feature options

- ☒ **Accept payments** Enable one-time and subscription payments. [Advanced options](#)
- ☒ **Invoicing** Issue invoices for payments owed, manage partial balances due, and enable custom net payment terms.
- ☒ **Payouts** Send batch payments to multiple PayPal accounts at once. You can vary the amount by recipient and select if you'd like it delivered by phone number or email.
- ☒ **Customer Disputes** Use the PayPal Disputes API to list disputes, provide evidence, accept claims, show dispute details, and appeal disputes.
- ☐ **PayPal Here** Process swiped/card-present card transactions.
- ☐ **Log in with PayPal** Identity service that enables your customers to login with their PayPal login.
- ☐ **Transaction Search** Access your PayPal transaction history.

Save [Cancel](#)

10. Paypal can now be closed. **Please provide the Integer Online Team with the Client ID and Secret.**

If you need any additional help with this. Please give Integer a call on 0161 798 7307 and the Online Team will be happy to help.
