

PayPal Merchant - How to acquire 'Client ID' and 'Secret'

This guide will provide instructions on **how to acquire your Client ID and Secret from PayPal**. Parts of some images below have been blurred out for security reasons.

Each image will enlarge in a new tab once clicked.

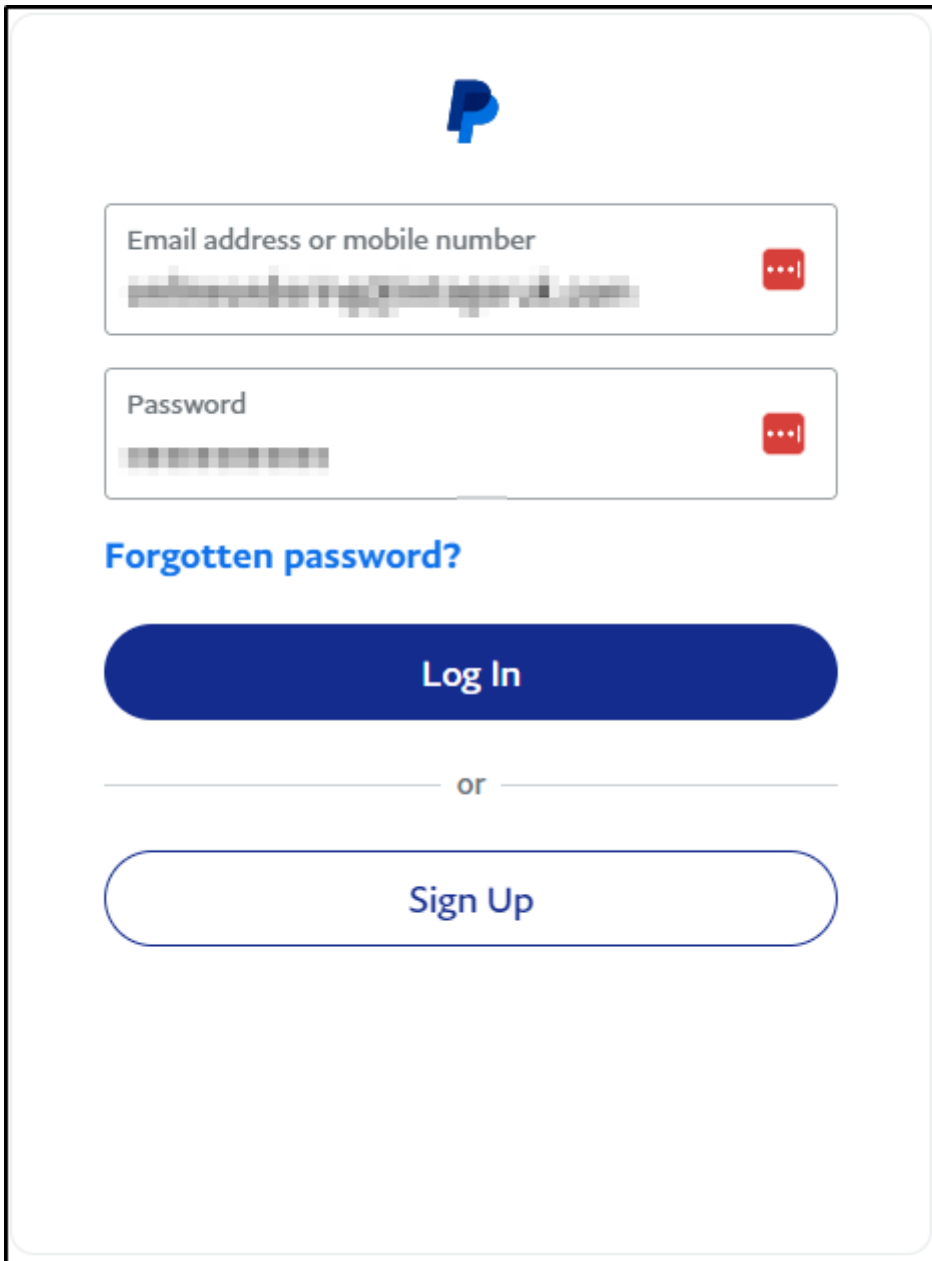

1. Go to **PayPal Developer** and click '**Log In to Dashboard**':

<https://developer.paypal.com/home>

2. **Sign into your account.** This will require a One Time Pass

code (OTP), this can be texted to your mobile phone.

The image shows a login form for Paycom. At the top center is the Paycom logo, a blue stylized 'P'. Below the logo are two input fields. The first field is labeled 'Email address or mobile number' and contains a blurred email address. The second field is labeled 'Password' and contains a blurred password. Both fields have a red eye icon on the right side, indicating a toggle for password visibility. Below the password field is a blue link that says 'Forgotten password?'. Underneath the link is a solid blue button with the text 'Log In' in white. Below the button is a horizontal line with the word 'or' centered. At the bottom is a white button with a blue border and the text 'Sign Up' in blue.

3. Once logged in, set the account to '**Live**'. (If the account is set to 'Sandbox', then it may require another login once it switches to live).

9. Scroll down and click 'Save'.

LIVE APP SETTINGS

Return URL - Users are redirected to this URL after live transactions. Allow up to three hours for the change to take effect. [Show](#)

App feature options

- Accept payments** Enable one-time and subscription payments. [Advanced options](#)
- Invoicing** Issue invoices for payments owed, manage partial balances due, and enable custom net payment terms.
- Payouts** Send batch payments to multiple PayPal accounts at once. You can vary the amount by recipient and select if you'd like it delivered by phone number or email.
- Customer Disputes** Use the PayPal Disputes API to list disputes, provide evidence, accept claims, show dispute details, and appeal disputes.
- PayPal Here** Process swiped/card-present card transactions.
- Log in with PayPal** Identity service that enables your customers to login with their PayPal login.
- Transaction Search** Access your PayPal transaction history.

10. Paypal can now be closed. **Please provide the Integer Online Team with the Client ID and Secret.**

If you need any additional help with this. Please give Integer a call on 0161 798 7307 and the Online Team will be happy to help.
