How to Split Meal Deals Up (inTouch & myInteger)

Meal Deals appear like this by Default, this FAQ tells you how to split them up into Pizza Deals, Burger Deals etc.

Meal Deals	
Family Meal For 4 2 x 10" Pizzas, 1x Cheese Burger, 1 x Kebab, 3 x Chips, 1 x 1.25Ltr Drink and 1 x Garlic Bread	£29.90
	Select
Cheese Burger Meal Cheese Burger, Chips and a Drink	£9.10
	Select
Chicken Kebab Meal Chicken Kebab, Spicy Rice, or Sweet Potato Mash, or Chips and a Drink	£10.40
	Select
Chicken Wrap Meal Chicken Wrap, Chips and a Drink	£8.70
	Select
Ham & Pineapple Meal 10" Ham & Pineapple Pizza, Chips and a Drink	£10.80
	Select
Chicken Greek Salad Meal Chicken greek salad meal includes spicy rice, sweet potato mash or chips with a drink	£9.00
	Select

On inTouch first go to ‘Management’

[image-1613146419137.png](#)

Image not found or type unknown

Then ‘Occasional Menu’

image-1613146980269.png

Image not found or type unknown

Click on 'Menus'

Meal Deals bottom right

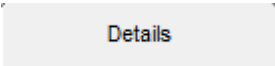

Select the first meal deal you want to be at the top in the first Deal course, for example

Pizza Deals

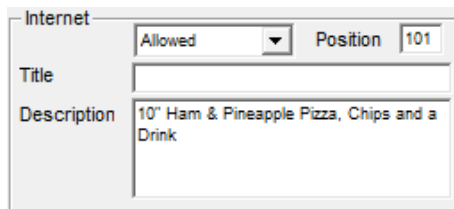

Go to 'Details'

Right hand side at the bottom change the position from 1 to 101

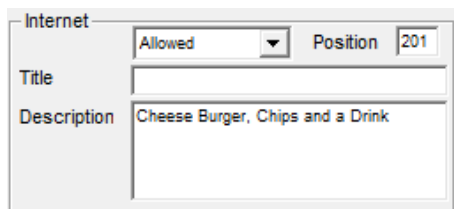

Internet	
	Allowed <input type="button" value="v"/> Position <input type="text" value="1"/>
Title	<input type="text"/>
Description	<input &="" a="" and="" chips="" drink"="" ham="" pineapple="" pizza,="" type="text" value="10"/>

This means it will be in the first deal course in position 1

The screenshot shows a form titled 'Internet'. It has a dropdown menu set to 'Allowed' and a 'Position' field set to '101'. Below these are fields for 'Title' and 'Description'. The 'Description' field contains the text '10" Ham & Pineapple Pizza, Chips and a Drink'.

The second meal deal course will start from 201

The screenshot shows a form titled 'Internet'. It has a dropdown menu set to 'Allowed' and a 'Position' field set to '201'. Below these are fields for 'Title' and 'Description'. The 'Description' field contains the text 'Cheese Burger, Chips and a Drink'.

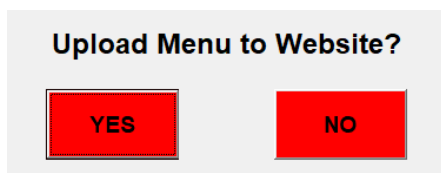

Once you have set all the Meal Deal courses and positions click 'Finished'

Finished

Click 'Exit'

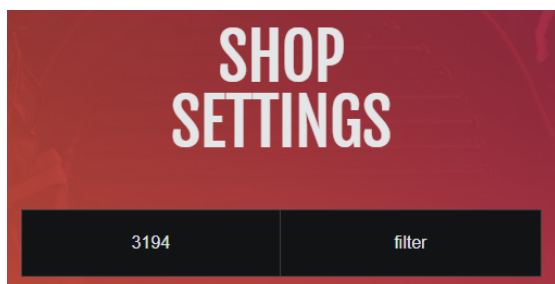

Exit

It will then ask you to Upload Menu to Website click 'Yes'

The screenshot shows a dialog box titled 'Upload Menu to Website?'. It has two red buttons: 'YES' and 'NO'.

Once uploaded go to myInteger and the appropriate license number

Click the '+' and search for SplitMealDealCourse

splitmealdealcourse	filter
---------------------	--------

Type in the Meal Deal courses you set on inTouch, seperating using a semi-colon

SplitMealDealCourse
will split into mealdeals using MealDealCourse (seperate by semi-colon)

Example of how it should look on myInteger

SplitMealDealCourse
Pizza Deals;Burger Deals;Kebab & Wrap Deals
will split into mealdeals using MealDealCourse (seperate by semi-colon)

Then click 'Save'

save

Once that has saved go to the license.letsorder.uk

 3194.letsorder.uk

You will then see the word Meal Deals has been swapped for each of the deal course you set (if done correctly)

Pizza Deals
