How to Upload Images to Your Website

On your browser go to myInteger (https://my2.integer2.co.uk)

image-1628596556192.png

Image not found or type unknown

Hover over 'Settings'

image-1628596663171.png

Image not found or type unknown

Click on 'Upload Image'

image-1628596688430.png

Image not found or type unknown

First select the course of where the item you want upload an image for it located

image-1628596768490.png

Image not found or type unknown

Secondly select the item itself for example Garlic Bread

image-1628596812228.png

Image not found or type unknown

Thirdly select the image from your computer

image-1628596846018.png

Image not found or type unknown

We recommend using Flexxi to resize the images (https://sourceforge.net/projects/flexxi-image-resizer).

This will allow you to crop all your images to the same size at the same time

Resize ALL the images to 1024x768 pixels (8x6 inches)

Make sure your images are .JPG format

Alternatively you can send them over via WeTransfer, be sure that all images are named correctly.

How To Create A Promo Code via myInteger

On your browser go to myInteger (https://my2.integer2.co.uk)

image-1631543732076.png

Image not found or type unknown

Hover over 'Promo Codes'

image-1631543812368.png

Image not found or type unknown

Click on 'Add a Code'

image-1631543924395.png

Image not found or type unknown

You will be brought to this screen.

image-1631544045492.png

Image not found or type unknown

First enter the code you wish to use for example PIZZA10 or if the code is for a specific customer click 'here' to generate a code.

image-1631544175825.png

Image not found or type unknown

Below that is 'Restrict Code' will allow you to choose how the code works whether to exclude meal deals or allow full discount.

image-1631545420104.png

Image not found or type unknown

By default 'Set Time Limit' is set to 'Never Expires' until disabled or you can choose the 'From Date' and 'To Date'.

image-1631545610254.png

Image not found or type unknown

By default 'Select Your Days' is set to 'Every Day' or you can choose specific days.

image-1631545760894.png

Image not found or type unknown

Keep 'Filter' option set to 'No Filter' unless you are creating a code for a specific customer and you have their email.

image-1631545965252.png

Image not found or type unknown

'Use Per Email' allows you to only the customers to use the code a specific amount of times. If the code is for a specific customer then this option is useful.

image-1631546237298.png

Image not found or type unknown

If you scroll to the top now and on the right you will see 'Minimum Spend'. Here you would enter 500 (£5.00) or 1000 (£10.00) minimum 100 (£1.00).

image-1631546461212.png

Image not found or type unknown

Choose whether the code is All orders, Collection or Delivery

image-1631546596864.png

Image not found or type unknown

By default 'App Only?' is set to 'App or Website'

image-1631547030354.png

Image not found or type unknown

Not only can you choose to discount an amount but also set it to be a 'Free Item'*

image-1631547458584.png

Image not found or type unknown

***With 'Free Item' select the course and the item itself for example garlic bread.**

image-1631547819019.png

Image not found or type unknown

Choose whether 'Percentage or Fixed Amount'.

image-1631547987279.png

Image not found or type unknown

Once you have selected one of the above you would enter the percentage or amount.

For example 20% just enter 20

image-1631548687041.png

Image not found or type unknown

'Qualifier' is only for if a required item* is needed in the basket to get the discount.

image-1631548723061.png

Image not found or type unknown

***With 'Required Items' select the course and the item itself for example Margarita Pizza.**

image-1631548927603.png

Image not found or type unknown

Once you have entered the code etc then click 'Save'

image-1631548849414.png

Image not found or type unknown

The discount code will then appear in 'Your Codes'

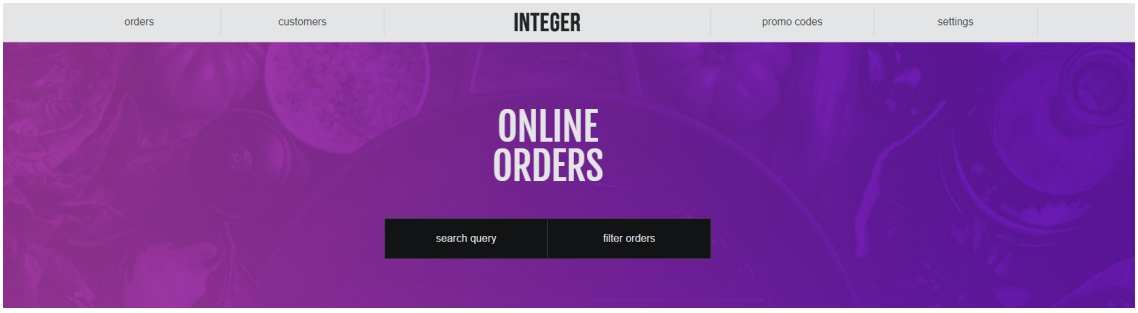

image-1631549138251.png

Image not found or type unknown

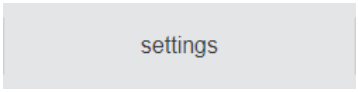

How to Hide A Lunch Course Outside Lunch Hours

Adding the Lunch Course options can be used for only allowing a certain course at set times for example a Lunch menu might only be available 12:00 til 15:00 so before/after the time customers won't be able to order them items

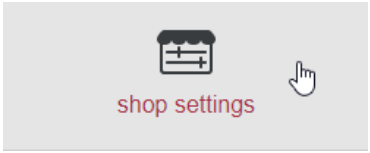

First go to myInteger (my2.integer2.co.uk)

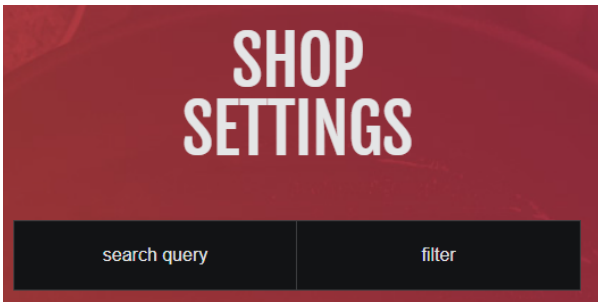

Hover over 'Settings'

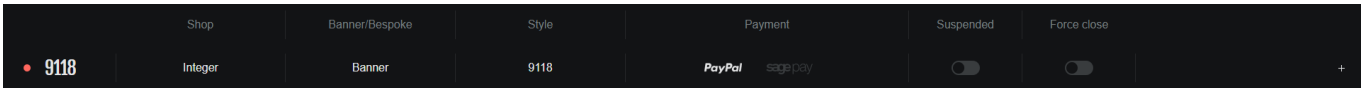

Click on 'Shop Settings'

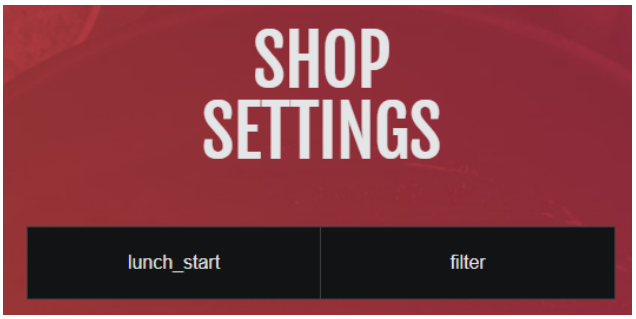

In search query type in the license number

Click the '+' to expand the options

Remove the license from the search query box and type in 'Lunch_Start'

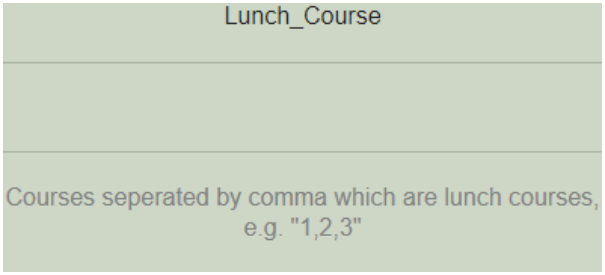

Enter the time the course starts. For example 1200

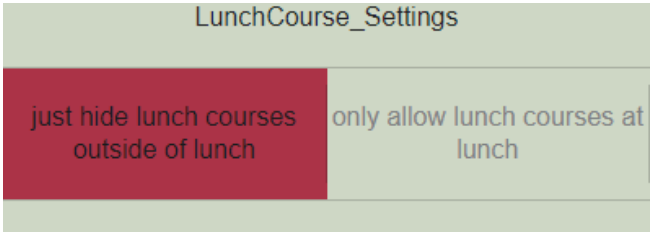

Next enter the time the course ends. For example 1500

Next enter the course number. For example 3 (Counter the courses on the website)

Set LunchCourse_Settings to 'Just hide lunch courses outside of lunch'

Then click 'Save'

Check the website outside of the lunch course hours it should display an 'i' next to the course that has been hidden

[i]*Chicken*
