Editing an order

If , before finalising the order, you touch the **Edit Order** button, inTouch takes you back to the Order screen. Amending or adding to an order has already been described in a previous section of this guide. When you touch **Next >>>** on the Order screen, the program will return to the payments section.

If you touch the **Name** or **Delivery Address** fields, the program takes you to the Customer Details screen for this customer and allows you to amend their details or create a new delivery address. Amending a customer’s details has been described in full in a previous section.

Revision #1
