How to install the Integer U80II (Ethernet)

*****Please call us to get the U80II printer driver*****

Unbox your Integer U80II

image_1623341637318.png

Plug the power cable into the back of the printer and plug socket

image_1623247612338.png

Then plug the Ethernet cable into the back of the printer and a port into your router

Turn the printer on

image_1623410852743.png

Once the green light is on go to 'File Explorer'

image_1623411102632.png

Click on 'This PC'

image_1623411184445.png

Then go to 'C: Drive'

image-1623411221731.png

Image not found or type unknown

Click on the 'Integer' folder

image-1623411257587.png

Image not found or type unknown

Open the folder 'Setup_U80 V1.12' folder

image-1623411297821.png

Image not found or type unknown

Double click on the 'Setup.exe'

image-1623411386115.png

Image not found or type unknown

Click on the 'Receipt' drop down and select 'U80II'

image-1623411481106.png

Image not found or type unknown

Click on 'Next'

image-1623411562972.png

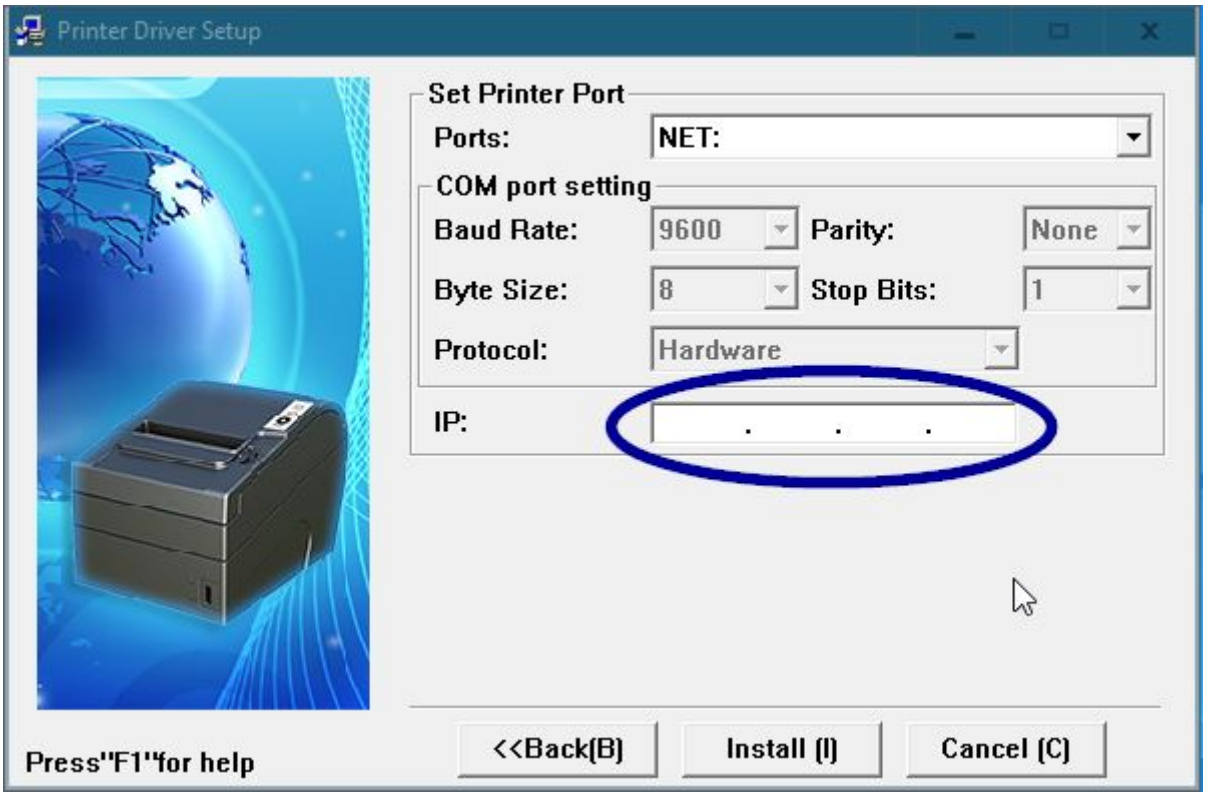

Image not found or type unknown

Click on 'Next'

image-1623411562972.png

Image not found or type unknown

On the next screen choose "Net" from the drop down and enter the printers IP address in the box and then click install at the bottom.

The IP address of the printer is given out by you router so can be different on every network. To find out what it is on the printer power it off, hold the feed button and power it back on. You should now receive a test print from the printer and at the bottom it will give you the IP address of the printer. Press and release feed again to print a bit more of the test print and the printer will now be ready to work.

Once the driver has installed click 'OK'

image-1623411760761.png

Image not found or type unknown

You will then need to go to the 'Control Panel'

image-1623248097139.png

Image not found or type unknown

Click on 'Devices and Printers'

image-1623247996906.png

Image not found or type unknown

Double click on 'U80II(E)'

Click the 'Printer' tab

image-1623248260603.png

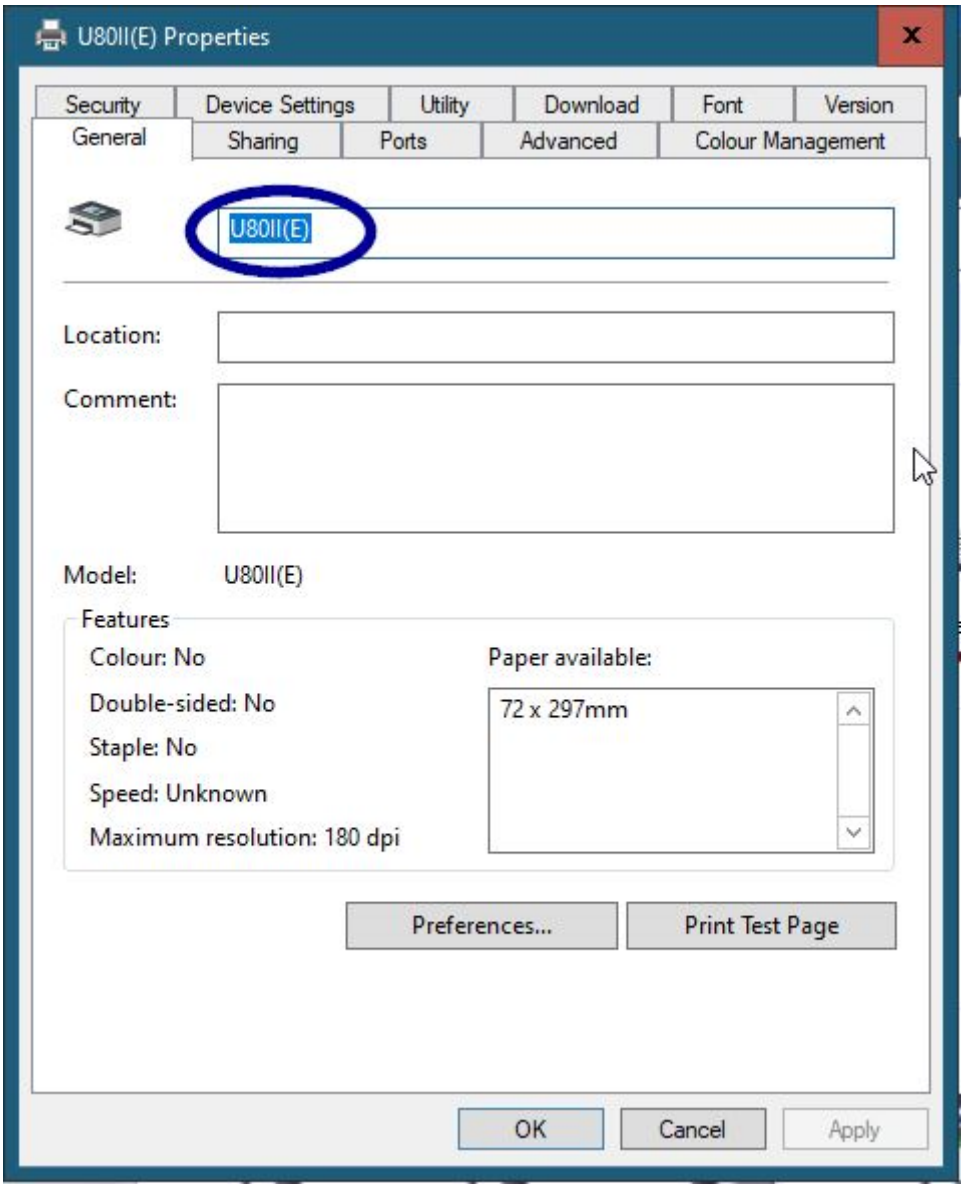

Image not found or type unknown

Then click on 'Properties'

image-1623248317892.png

Image not found or type unknown

Click in the box that says 'U80II(E)'

Rename it to 'Receipt'

image-1623248737834.png

Image not found or type unknown

Then click 'OK'

image-1623248632461.png

Image not found or type unknown

To check that the printer works go to 'Properties'

image-1623248317892.png

Image not found or type unknown

In the 'General' tab

image-1623249220065.png

Image not found or type unknown

At the bottom click on 'Print Test Page'

image-1623249299090.png

Image not found or type unknown

This will then do test page

image-1623249378961.png

Image not found or type unknown

Then on the Server in inTouch go to 'Management'

image-1623413441740.png

Image not found or type unknown

Click on 'Occasional Menu'

image-1623413468507.png

Image not found or type unknown

Then 'Options'

image-1623413497979.png

Image not found or type unknown

In the 'Receipt' tab

image-1623413538994.png

Image not found or type unknown

You will then see 'Printer Type'

image-1623413607830.png

Image not found or type unknown

Click on the drop down

image-1623413644452.png

Image not found or type unknown

Select 'Epson Thermal'

image-1623413692972.png

Image not found or type unknown

Then 'Save & Exit'

image-1623413728988.png

Image not found or type unknown

And 'Exit'

image-1623413749749.png

Image not found or type unknown

And 'Main Menu'

image-1623413774861.png

Image not found or type unknown

Then just do a test print
