

# Bookings

The way the bookings are set in the restaurant options.

The screenshot shows a software interface for restaurant settings. At the top, there are tabs for Receipt Printer, Kitchen Printer, Charges, Reports, Restaurant, Order Screen, Security, and Set-Up. The 'Restaurant' tab is active. The interface is divided into several sections: Receipt, Restaurant Service Charge, Bookings, Sundry, and Omit Courses. The 'Bookings' section is highlighted with a blue oval and contains the following options: 'On Management Menu' (a dropdown menu), 'Must Enter Assistant Before Taking Bookings' (unchecked checkbox), 'Enable Lunch Time' (checked checkbox), and 'Default Booking Time' (input field with '90'). The 'Sundry' section includes 'Starting Menu' (input field with '0') and a list of checkboxes for various settings like 'EOD Report Doesn't Display Covers', 'Puts Finalised Orders on Payment by Driver Screen', etc. The 'Omit Courses' section has two input fields for 'Restaurant' and 'Not Restaurant'. At the bottom, there are two red buttons: 'Abort' and 'Save & Exit'.

The Bookings Section is where you can set how the booking work if you have chosen it to appear.

- The first drop down allows you to say where or if the bookings button appears. It defaults to "None" but can be set to "On Main Menu" or "On Management Menu" and if set to either of these that is where the Bookings Button will appear.
- The "Must Enter Assistant Before Taking Bookings" option, if set, will ask for the assistant name first when placing a booking.
- The "Enable Lunch Time" option ,if chosen, when you choose a day to place the booking will have a "Show Lunch" button at the bottom right and it you press this It will show the earlier period of time for that day

Once the bookings are set up the Bookings button appears where you set it to. Once you press on Booking you will see the days in the month.
